

RAHUL KP

ABOUT ME

A passionate Computer Science professional with dual academic qualifications in BSc and MSc, equipped with comprehensive technical skills spanning programming languages like Python, Java, and C, and advanced domains such as Machine Learning and Deep Learning. Proficient in Data Structures, Algorithms, and SQL, with a strong academic foundation and apply theoretical knowledge in practical, innovative technological solutions. Seeking opportunities to leverage my technical expertise and contribute to cutting-edge software development and data science projects. Committed to continuous learning and professional growth in the dynamic world of technology.
